

I understand my radio station K-Love, 88.9 FM, may go off the air due to expanding LPFM stationing.

1. K-Love is rated in top rankings with secular stations in OKC. That says a lot on how K-Love is viewed here in OKC.

2. If we were to lose this station, I and others would lose our positive and encouraging radio station. This station helps us to maintain our strength and courage in an awful world these days. We are inspired by God's words in this music ministry. It helps us cope!

3. We need more radio stations who give us this positive not negative side of life. We hear good instead of evil. The public needs to hear this positiveness against all the negativeness this world has to offer.

Thank you for considering my comment, and I hope you will help to preserve this service that has wholesome values and impact across America.
